The 28th China (Guangzhou) International Building Decoration Fair

The 28th CBD Fair (Guangzhou)

Time

July 8-11, 2026

Location

Canton Fair Complex, Guangzhou, China.

Introduction

Host: China Foreign Trade Centre Group Co., Ltd., China Building Decoration Association

Organizer: China Foreign Trade Guangzhou Exhibition Co., Ltd.

Supporters: China National Forest Products Industry Association (CNFPPIA), China Furniture and Decoration Chamber of Commerce (CFDCC), China Chamber of Commerce of Metals, Minerals & Chemicals Importers & Exporters (CCCMC)

Widely recognized as the “Debut Platform for Champion Enterprises”, the China (Guangzhou) International Building Decoration Fair, commonly known as CBD Fair (Guangzhou), is where the industry’s front-runners to unveil their latest products and solutions. Now in its 28th edition, CBD Fair (Guangzhou) is transitioning from a traditional trading event into a year-round platform that empowers the full value chain and drives tangible business outcomes.

It has refined its strategic focus into three distinct ecosystems: INTERIOR (interior design, finishes, coatings and integrated living solutions), EXTERIOR (building envelope systems, including doors, windows, and façades), and MATECH (materials, hardware, and advanced machinery).

CBD Fair (Guangzhou) has also forged cross-industry partnerships through six major channels, ranging from dealers, international traders and designers to decoration companies, commercial contractors and new media partners.

The upcoming fair will bring together nearly 2,000 leading Chinese manufacturers, covering the entire building decoration supply chain. It is expected to attract over 200,000 qualified high-value professionals from 145 countries and regions.

Taizhou Zhengxing Valve Co., Ltd. is headquartered in Taizhou City, Zhejiang Province. After years of arduous efforts, the company has become one of China's most outstanding professional manufacturers of sanitary ware. Committed to the path of becoming a supporting factory for international top-tier brands and domestic first-tier brands, as well as developing its own brand, the company now owns the "TIEMA" independent brand and holds the right to import and export on its own. To pursue exceptional quality and strive for top-tier service, our company has a team of highly skilled engineers and technicians who incorporate advanced concepts from domestic and international peers, continuously improving and enhancing our products to meet diverse customer needs. The Zhengxing team excels in the market with exquisite design, advanced manufacturing technology, reliable pricing, and minimalist yet elegant product aesthetics, with products sold worldwide.

1.1-D01

Founded in 1993, Guangdong Jazzi Spa Tech Co., Ltd. (JAZZI) has grown into a top-tier Asian manufacturer specializing in swimming pools and outdoor massage spas. We operate as a fully integrated enterprise covering independent R&D, production facility, global sales and on-site engineering support for a full spectrum of aquatic and water hydrotherapy leisure products. Adhering to our core brand mission — European-grade quality at China-competitive pricing — we commit to delivering premium products that fully comply with European standards while maintaining cost advantages for worldwide partners.

Core Product Lines

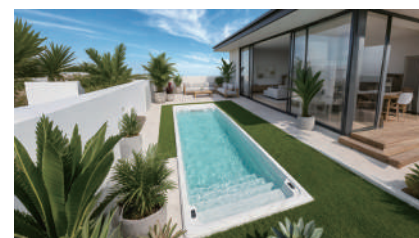

1. Outdoor Massage Spas

As our flagship series, our outdoor massage spas are engineered for ultimate comfort and deep relaxation. We integrate cutting-edge energy-saving designs, eco-friendly materials and smart control technology to balance luxury experience with low operational costs and environmental sustainability.

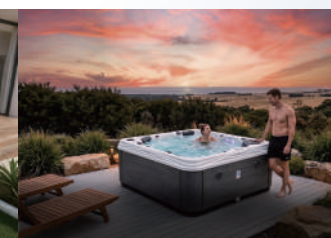

2. Intelligent Endless Swim Spas

Our patented endless swim spas eliminate the space constraints of traditional concrete swimming pools. Equipped with adjustable counter-current water flow systems, they deliver customizable swimming resistance to suit casual leisure, daily fitness and professional training, all within a compact footprint.

We welcome global distributors, project contractors and trade partners to reach out for detailed catalogs, customized solutions and exclusive cooperation opportunities.

vanlei万磊®

1.2-C01

Vanlei Paint, Made in China, Right on Trend. Founded in 1991 in Foshan, Guangdong, Vanlei Paint has always adhered to the concept of “bringing nature into the home,” striving to do just one thing well: make every wall better. We have established two production bases nationwide, including a 15-mu R&D and production base in Foshan, Guangdong, and a 30-mu production base in Guigang, Guangxi, with more than 30 years of experience in paint R&D, manufacturing, and service. We have participated in drafting industry standards such as the “Diatom Mud Industry Standard” and the “Art Paint Industry Standard.” We have also obtained 13 nationally certified invention patents, and have been awarded ISO9001 management system certification, Swiss SGS certification, and the French A+ indoor air quality certification grade. For five consecutive years, we have been named an “Alibaba Global Premium Supplier.” Contradictions give rise to new things. Between domestic and imported products, Vanlei has always been a firm supporter of Chinese-made products. In today’s world, “Made in China” is gradually becoming the main theme of this era. [Uphold originality and adhere to Made in China] — insisting on originality and Made in China is the best interpretation of domestic brands. Define quality paint with time, and let technology accumulate the value of Chinese manufacturing. Vanlei Microcement, [Made in China, Right on Trend].

Gangyu, founded in 2002, has been dedicated to the coating industry for 24 years. Headquartered in Guilin, Guangxi, the company operates six major production bases across Hunan, Guangdong, and Guangxi, with a total floor area exceeding 100,000 m². Its sales network covers 28 provinces and regions in China, as well as Southeast Asian countries including Malaysia, serving over 5,000 retail outlets. The product portfolio includes more than 300 items, such as dry powder putties, stone-like coatings, artistic paints, waterproofing materials, and latex paints. This comprehensive range forms a fully integrated industrial chain—from R&D, material selection, and manufacturing to interior wall coatings and building façades—supporting a diversified product system. Guided by the commitment "Product First, Environment Above All," Gangyu integrates stringent environmental standards into every stage of its operations. It has earned authoritative certifications such as China's Environmental Label and CCC, as well as international recognition including Germany's EC1, France's A+, Finland's M1, and the EU's SVHC.

Founded in 2008, YUZHU is a national high-tech enterprise specializing in the research, development, manufacturing, and commercialization of advanced functional materials and indoor air quality solutions. Driven by innovation and a commitment to independent core technologies, YUZHU has established a fully integrated innovation ecosystem covering material research, pilot-scale validation, industrial production, market application, and global commercialization. The company maintains long-term research collaborations with leading institutions including Tsinghua University, Northeastern University, China Building Materials Academy, and other renowned research organizations. YUZHU operates a modern intelligent manufacturing base with automated production lines and advanced quality control systems. The company has developed large-scale production capabilities for refined calcium oxide, high-surface-area calcium hydroxide, inorganic mesoporous materials, and water-based inorganic formaldehyde-removal coatings. At the core of YUZHU's technology platform is a proprietary inorganic mesoporous material developed through more than a decade of continuous research. Featuring a highly porous nano-structured architecture and ultra-high specific surface area, the material enables both adsorption and catalytic decomposition of formaldehyde, VOCs, odors, and other airborne contaminants. Today, YUZHU's technologies serve a wide range of industries including plastics, coatings, rubber, paper, chemicals, construction materials, and indoor environmental protection. The company has obtained more than 40 patents and contributed to the development of multiple industry standards. With a mission to advance sustainable materials and healthier living environments, YUZHU is committed to delivering innovative, environmentally responsible solutions to customers worldwide.

Founded in 2006, Sentai group is a national high-tech enterprise specializing in R&D, design, production, and sales of high-performance wood-plastic composite products. Our product line includes WPC outdoor flooring, wall panels, fencing, and modular housing. These eco-friendly and recyclable solutions serve as sustainable alternatives to traditional wood materials that contribute to deforestation and environmental pollution, widely applied in outdoor engineering, municipal landscaping, boardwalks, scenic area renovations, and cultural tourism projects. With sales subsidiaries in the U.S. and Europe, plus three major production bases in China, Vietnam, and Thailand, we hold 140 authorized patents (including 90 invention patents). As a leading force in China's outdoor composite materials industry, our global sales network spans over 70 countries and regions. The company was listed on the Shenzhen Stock Exchange on April 17, 2023.

产品优势：1. 环保：采用天然木材和塑料颗粒，不含甲醛，无毒无害。2. 耐用：抗老化、抗紫外线、抗虫蛀、抗腐蚀。3. 易安装：采用卡扣式设计，无需胶水，施工简便。4. 易维护：表面光滑，不易沾污，清洁方便。5. 性价比高：价格低廉，使用寿命长。

SINOWOLF has always adhered to the corporate philosophy of “Establishing the business with integrity, exercising self-discipline, and being responsible to customers and end consumers.” We provide global customers with integrated solutions for edge banding materials and decorative films, driving industry upgrading through innovation and building brand trust through superior quality.

SINOWOLF is a modern enterprise specializing in edge banding materials for panel furniture. Headquartered in Sihui, Zhaoqing, the company also operates a branch factory in Zhejiang Province. We are committed to the research, development, production, and sales of high-end edge banding materials and have obtained 27 national invention patents to date.

Bolstered by our technological strength, we have been accredited as a National High-Tech Enterprise and a Specialized, Sophisticated, and Innovative “Little Giant” Enterprise. In addition, our products have passed the high-standard certification of “Made in Zhejiang.”

Our product matrix is continuously evolving and upgrading. It covers a full range of high-end edge banding materials, including PVC, ABS, PP, and PMMA, while also featuring innovative decorative surface products such as Eco-Fusion Foils (EFF), Craft-Carved Foil, Classic Mellow Leather, and Release Film.

With EU quality standards at the core of our manufacturing philosophy, our products combine environmental performance, wear resistance, and aesthetic texture. They fully meet the high-end surface finishing requirements of panel furniture, customized home furnishings, and other related industries.

Founded in August 2017, Jiaocheng Yiwang Ferroalloy Energy-Saving & Environmental Protection Technology Co., Ltd. is a wholly-owned subsidiary of Jiaocheng Yiwang Ferroalloy Co., Ltd.

We produce green building materials from ferroalloy waste slag. Our flagship product, MINEWAY TECH Mineral Panel, is a brand-new construction material adopting our exclusive technology. We are China's first and the world's third producer of this product, as well as the world's sole manufacturer using industrial solid waste for production.

It meets Euroclass A2 fire resistance standard, and delivers superior performance in waterproofing, moisture resistance and environmental protection. It is ideal for exterior walls, bathroom spaces, indoor wall decoration and fireproof sandwich layers.

We hold 56 patents and world-leading core technologies, with four management system certifications. We are a Provincial SRUI SME and a National Green Factory. The group's annual output value exceeds RMB 4 billion, with products exported globally. We pursue innovation and intelligent manufacturing to lead the industry.

Xianghan New Material Technology (Shenyang) Co., Ltd., formerly known as Shanghai Xianghan Industrial Development Co., Ltd., was founded in 2008. The company is a professional manufacturer of interior decorative materials, integrating design, research and development, production, and sales. Inspired by Italian design concepts, Xianghan has independently developed its own production equipment and manufacturing technologies. By combining advanced decorative aesthetics with the practical needs of both domestic and international markets, the company continues to expand the application value of interior decorative materials across furniture, wall decoration, commercial spaces, and customized surface design. Over the years, Xianghan has remained committed to product innovation, craftsmanship, and quality improvement, and has established its well-known brand, "Impression Meile." The brand's main product lines include embossed decorative panels, soft embossed decorative materials, and ultra-thin rock panels, providing customers with decorative surface solutions that combine design, texture, and processing flexibility.

Guangzhou NewHoo Technology CO.,LTD. founded in 2015, is a high-tech enterprise focusing on the R&D and production of outdoor shading materials and finished products. It is located in the Hongyu Zhihui Industrial Park, 16KM north of Guangzhou Baiyun Airport, at the intersection of Daguang, Pearl River Delta Ring Line, Le Guang and other highways. NEWHOO has a modern factory of over 20,000 square meters and an annual production capacity of 100,000 sets of windproof roller blinds.

NEWHOO focuses on the R&D and production of outdoor shading products, with a team that has more than 20 years of industry experience. Currently, the company has over 50 national patents for windproof roller blinds and other outdoor shading products, as well as over 60 national patents for indoor shading products. With independent intellectual property rights, our products are well-known in the industry and exported to Europe, America, Australia, Southeast Asia and other regions.

Based on products with independent intellectual property rights, NEWHOO widely carries out ODM and OEM services. Adhering to the concept of "Innovation creates value, and value leads the future, NEWHOO strives to make outdoor shading products last longer and be used more extensively. NEWHOO aims to become "the best supplier of outdoor shading materials in China".

ViewMax has achieved full-process digital production and has full-industry-chain production capacity from software, equipment, to profiles, hardware, and glass. The innovative 5mm inlay hardware technology and HFL right-angle technology have subverted traditional processes, and the product performance is excellent. ViewMax's independently developed UPVC high-performance windows and doors integrate the advantages of materials as aluminum, UPVC, and steel. The thermal conductivity is only 1/1250 of aluminum alloy, and there is no thermal radiation effect. The insulated aluminum covers high-end "Heguang" and cost-effective "Pingchuang" product lines. Among them, "Heguang" narrows the frame and s gap to 5mm through 5mm hardware technology, greatly improving the sealing performance. In addition, ViewMax relies on the digital cloud platform to achieve precise quotation, cost, and benefits dealers and consumers.

Our company is an aluminum alloy PD door factory that integrates development, production and sales. We attach great importance to product quality. All aluminum door products and related accessories are carefully developed, purchased, and ensured with a complete production system and considerate after-sales service to maintain our company's advantages in the same industry. The products have features such as environmental protection, durability, moisture resistance, corrosion resistance, non-fading, good sound insulation. We have advanced equipment, first-class surface treatment technology combined with meticulous craftsmanship. Regardless of the style or performance, they are of superior quality and can meet your needs for door decorations. The company takes "Only progress, never stop" as its company purpose, follows the management concept of "people-oriented", continuously improves product quality and services, and is committed to producing an industrial door manufacturing enterprise with scientific production, professional details and modern management.

Guangdong Zhonghui Lvjian Mobile Housing Technology Co., Ltd. is a large-scale modular building technology enterprise that integrates R&D, manufacturing, sales, leasing, and Engineering-Procurement-Construction (EPC) services.

We leverage strong in-house R&D capabilities and a global production base exceeding 420,000 square meters. Our complete product portfolio covers standard units like expandable, foldable, and detachable containers, as well as high-end customized products such as Space Capsules, Star Cabins, and Light Steel Villas.

As a leader in modular construction, we have participated in numerous landmark projects: From emergency response, including 58 cabin hospitals such as Wuhan's Huoshenshan, Leishenshan, and the Central Government-aided Hong Kong Hospital. To international events like the container hotels for the FIFA World Cup Qatar 2022. From post-earthquake resettlement areas in Turkey. To winning a contract for an international camp project in Russia covering over 110,000 square meters.

To date, we have served 25,000+ global clients across more than 60 countries and regions, with annual revenue surpassing 600 million CNY.

We are committed to providing systematic solutions for urban renewal, rural revitalization, and modern human settlements. This is achieved through the deep integration of standardized products and flexible services, steadfastly pursuing our corporate mission: "To make the world a better place because of our presence."
